Horse Speak® opens a world of Communication,
Horse-to-Human and Human-to-Horse.

Horse Speak is literally the language system of the
horse based on their own set of *Gestures, Signals
and Postures*, decoded by Sharon Wilsie.

Instead of trying to teach horses how to speak and
understand “*People*”, we can now use “*Horse*”.

- Solidify Precision Body Language Skills (PEBLs)
- Observe horses on the Chessboard
- Learn the 15 Buttons- and what they do
- Invite the horse to come with you
- The importance of the Greeting Ritual
- Establishing “*My Space-Your Space*”
- Understanding “*Roles in the Herd*”

Learning Horse Speak® works with all disciplines, and
changes the way you work with feral horses, young
horses, traumatized horses, and helps when
introducing new horses to a herd.
