Horse Speak® opens a world of Communication, *Horse-to-Human* and *Human-to-Horse*.

Horse Speak is literally the language system of the horse based on their own set of *Gestures, Signals and Postures*, decoded by Sharon Wilsie.

Instead of trying to teach horses how to speak and understand “People”, we can now use “Horse”.

- Solidify Precision Body Language Skills (PEBLS)
- Observe horses on the Chessboard
- Learn the 15 Buttons- and what they do
- Invite the horse to come with you
- The importance of the Greeting Ritual
- Establishing “My Space-Your Space”
- Understanding “Roles in the Herd”

Learning Horse Speak® works with all disciplines, and changes the way you work with feral horses, young horses, traumatized horses, and helps when introducing new horses to a herd.
